

LETTER OF STATEMENT

June 19th, 2024

Dear Editor-In-Chief,
apt. Ismiarni Komala, M.Sc., Ph.D.
Pharmaceutical and Biomedical Sciences Journal (PBSJ),
UIN Syarif Hidayatullah Jakarta, Indonesia

We wish to submit an original research article entitled “Optimization Parameters of Natural Deep Eutectic Solvent Based on Choline Chloride and Fructose for Extraction of Polyphenol from *Spilanthes acmella*” for consideration by Pharmaceutical and Biomedical Sciences Journal (PBSJ).

In this paper, we show the most advantageous extraction environment of NADES to isolate natural substances through a preliminary analysis of the factors influencing extraction. This paper provides significant findings for achieving the efficacy of NADES as the extracting agent. Furthermore, we believe this manuscript is appropriate for publication by PBSJ because it concerns the study of green extraction using an environmentally friendly extraction medium (NADES) that can be applied to the pharmaceutical field that your journal is interested in.

We confirm that this work is original and has not been published elsewhere, nor is it currently under consideration for publication elsewhere. We have no conflicts of interest to disclose.

Please address all correspondence concerning this manuscript to me at (fajarameliarputri@gmail.com).

We appreciate your consideration of this manuscript.

Sincerely,

Fajar Amelia Rachmawati Putri
